## HEARTBREAK MELT'S GELATO

### 100% Plant-based & Produced in-house

Our recipes have been refined and suited to most taste buds, allowing more people to be satisfied despite catering to different people's tastes and preferences

HEARTBREAK MELTS

## **Why choose plant-based gelato for its potential health advantages over dairy-based gelato?**

Plant-based gelato is typically lower in saturated fat than traditional dairy-based gelato.

**Higher in nutrients:** Plant-based gelato can be made with a variety of nutrient-dense ingredients, such as fruits, nuts, and seeds, which can add to the overall nutritional value of the dessert.

**Lactose-free:** lactose, a type of sugar found in dairy products that most asians are intolerant to. This can make it a more suitable option for those with lactose intolerance or dairy allergies.

**Environmentally friendly:** Choosing plant-based gelato can also have environmental benefits, as it typically requires less water and produces fewer greenhouse gas emissions than traditional dairy-based gelato.
